

## ✧ *Pet Bandana*

### *materials needed*

- 1 yard of fabric
- Coordinating cotton threads
- Decorative trims – optional
- Measuring tape

### *instructions*

Seam allowance is 1/4" unless noted.

Measure around your animal's neck and add 4".

From your fabric, cut a square of your measurements. For example, if your dog's neck is 18" you add 4" to equal 22". You would cut a square 22" x 22" from your fabric.

Fold your square right sides together, on the diagonal, so it creates half of a triangle. Sew along all the open edges leaving a 3" opening along one side to turn right side out.

Cut your corners and turn the bandana right side out. Place trims where desired or simply topstitch to finish and close your opening.
